School Improvement Plan (SIP) Guidelines and Template

Overview

The goal of the School Improvement Plan (SIP) process is to create a strong plan to raise student achievement at your school. Your SIP should outline the work you will do this year to meet the end-of-year student achievement goals outlined in the district’s SY15-16 Accelerated Improvement Plan (AIP).

An effective SIP will:
- Build off of previous work in your school, including last year’s SIP
- Be based in an analysis of data about your school’s performance
- Reflect school-specific needs identified through this data analysis and be aligned to the priorities outlined in the AIP
- Be regularly updated throughout the year if student work suggests that progress is not on track

Process

There are 4 steps to the SIP process:
1. **Set goals aligned to the AIP**: Set student learning goals that meet the final outcomes in the AIP.
2. **Use data to determine school-specific strengths and weaknesses for each AIP objective**: Review your school’s SIP, its implementation, and your school’s student results from last year to identify components that worked well and others that were challenging. Use this information to update your school’s strengths and focus areas for the upcoming school year with an emphasis on assessing your school’s progress related to the objectives in the AIP.
3. **Develop strategies/actions to address focus areas**: Develop strategies/actions and specific activities to address the reasons that students struggle, which you identified in Step 2. Include a small set of benchmarks to help you assess whether you are on track to meet your end-of-year goals along the way. Among other benchmarks, you should include those that are in the AIP.
4. **Implement and adjust throughout the year**: Implement the SIP, and continue to use the plan as a “living” document throughout the year. If student data suggests that a strategy/action is not working, the SIP should be revised and updated to reflect the steps you will take to ensure students learn. Instructional liaisons will meet with each principal twice monthly to provide frequent monitoring and support to ensure schools are on track to meet their benchmarks in November, February, and May and to discuss what mid-course corrections may be required.

Shared ownership of the SIP is an essential part of the school improvement process. You are encouraged to develop your SIP in collaboration with your staff, such as your School Instructional Leadership Team (SILT). Members of the SILT may include:
- Principal
- Teaching Learning Specialist (if applicable)
- One teacher from K-2 and 3-5 (elementary schools), or from each content area (secondary schools)
- A special education teacher
- An ELL teacher
- Member of the guidance team
Please submit a draft of your SIP to Jason DeFalco by **Thursday, October 1**. Feedback on SIPs will be provided by **Friday, October 16**.

**Overview of the AIP**

As mentioned above, your SIP should be aligned to the district’s plan to raise student achievement. This plan is articulated in the AIP. The four objectives in the AIP include:

- **Integrate efforts around planning, instruction, and assessment (Objective 1):** The district will provide teachers and school leaders with focused professional development and resources to plan and deliver lessons aligned with rigorous curriculum, to measure the impact of instruction on student learning, and make adjustments to instruction based on data, as needed.

- **Develop robust student support systems (Objective 2):** The district will develop systems to identify and support students with a range of unique needs, including social-emotional, special education, and ELL needs.

- **Increase the rigor of instruction (Objective 3):** New Bedford Public Schools will continue its work to increase the capacity of principals to serve as effective instructional leaders through professional development at bi-monthly Principals’ Meetings and supports from the Office of Instruction. A major focus of this work will be on helping increase the rigor of classroom instruction by delivering training to school staff during the additional 20 hours of PD this year.

- **Engage parents as partners (Objective 4):** Teachers and principals will engage families as partners in their child’s education, identifying venues to reach unengaged parents, and collaborating with engaged parents to support their child. The district will develop proactive communication plans for critical district activities to keep the community informed and include community input when possible.

**How to use this template**

The rest of this document includes a template you can use to write your SIP. The template includes the four components that are required for your SIP. Instructions for each section can be found at the beginning of the relevant section.
Section 1. Set goals aligned to the AIP

Instructions: Analyze EOY Galileo data from last year to help set your end-of-year goals for the current school year. You must set three student learning goals, which are aligned to the student learning goals in this year’s AIP:

1. By EOY, the district will realize at least a 40% reduction in students not proficient or advanced in ELA and Math for grades K-5, and in ELA and Math for grades 6-12
2. By EOY, the district will see at least 10% of students in warning move into needs improvement in ELA and Math
3. By EOY, the district will see at least 10% of students in proficient move into advanced in ELA and Math

Note: Since EOY PARCC scores might not be available yet, please use EOY Galileo scores from last year as a substitute baseline proficiency level for planning purposes. You should have a system to revisit your student data throughout the year, as we get data from BOY Galileo, PARCC, MOY Galileo, and other assessments.

(a) Describe the goals you have for student outcomes, in terms of approximate number of students that you need to move to meet each of the three goals listed above.

<table>
<thead>
<tr>
<th>Spring 2015 Data</th>
<th>% of students no proficient or advanced</th>
<th>% of students in warning</th>
<th>% of students proficient</th>
</tr>
</thead>
<tbody>
<tr>
<td>ELA</td>
<td>40%</td>
<td>0%</td>
<td>60%</td>
</tr>
<tr>
<td>Math</td>
<td>80%</td>
<td>50%</td>
<td>20%</td>
</tr>
</tbody>
</table>

- By EOY, Whaling City will realize at least a 40% reduction in students not proficient or advanced in ELA and Math for grades 6-12.
- By EOY, Whaling City will see at least 10% of students in warning move into needs improvement in ELA and Math for grades 6-12.
- By EOY, Whaling City will see at least 10% of students in proficient move into advanced in ELA and Math for grades 6-12.
- By EOY, Whaling City will increase student standardized test participation by 40% in the 2015-2016 academic year (Galileo, MCAS, PARCC).

(b) Describe the process or system you will use to revisit student data throughout the year and track progress toward your goals as new data become available.

Here are some examples for tracking student data that could be helpful resources:
• Putting every student name on a post-it and tracking them across achievement levels based on the most current benchmark assessment data
• Tracking proficiency levels on unit assessments by grade level or classroom
• Tracking number of students demonstrating mastery by standard to help identify what parts of the content need revisiting

You can find data wall systems online, for example:

• Photos and samples: http://www.teachthought.com/teaching/what-a-data-wall-looks-like/
• DESE guidance, see section 6.2.2T) http://www.doe.mass.edu/apa/ucd/ddtt/toolkit.pdf

1. Whaling City will institute a Data Wall in the Principal’s Office to track the following:
   • Attendance
   • Tardies
   • Suspensions
   • BOY, MOY, EOY Galileo Data
   • MCAS and PARCC data when available
   • Drop-Out Data
   • Retention

2. Whaling City has also implemented a monthly progress report system for each student enrolled at Whaling City. These reports will allow us to monitor the academic and behavioral progress of each student so that we may address struggling students much earlier and more efficiently throughout the 2015-2016 academic year.

3. Whaling City has instituted focused weekly PLCs organized into Middle School and High School cohorts since 9-15-15. At the PLCs, teachers analyze classroom data and design strategies to improve instruction.
Section 2. Use data to determine school-specific strengths and weaknesses for each AIP objective

Instructions: School leaders must analyze data in order to create a school-specific plan to meet the student learning goals established in Section 1. This section is intended to help you look at student work in a meaningful way and to help you identify your school’s strengths and the areas you will focus on this year to improve student outcomes.

Focus on analyzing your school’s progress on work related to the four objectives in the AIP, as these are the key levers that the district believes will lead to change. Not every objective may be a focus area for every school. The district’s four objectives are outlined on page 3.

Answer questions (a) and (b) in the space provided. Potential data sources to use to answer these questions include:

Student performance data:
- PARCC/MCAS item analysis, if available
- Final exams
- DIBELs
- Galileo
- Formative assessments
- Examples of student work

Instructional data:
- Observation data on curriculum and instruction
- Feedback to teachers

Student indicator data:
-Student attendance
-IEPs and 504s
-Disciplinary data
-SPED referrals
-Graduation/dropout data
-Intervention data
-Mobility
-Course failures

Teacher data:
-Teacher attendance
-Teacher evaluations
-Tiering of teachers
-TELL Massachusetts survey

(a) What progress did your school make last year in student learning?

- Eleven students graduated from the high school at Whaling City in June of 2015.
- Fifteen students moved up to the ninth grade from the middle school at Whaling City in June of 2015.
- 2014-2015 high school MCAS ELA scores exceeded annual goal with 60% proficient and 0% in warning or failing.
- 100% of high school students passed MCAS ELA in the Spring of 2015.
- A multidisciplinary behavior support team was implemented in 2014-2015, meeting weekly to establish sound behavior protocols and collect data relevant to student success involving 100% of students.
- Whaling City reinforced community partnerships via monthly collaborative meetings with DCF to discuss all DCF/Court involved students.
- Service learning programs at Carney Academy involving seventeen Whaling City students and
thirty Carney Academy students
- Increased the number of teacher/staff evaluations during 2014-2015 to involve 100% of teachers
- 100% of graduating seniors (eleven) applied to and were accepted by BCC and were encouraged to pursue higher education and career goals
- 100% of students labeled as dropped were contacted and encouraged to reenroll in school. Five of these students reenrolled in our alternative pathways.
- 100% of students (fifteen) enrolled in the after school program were introduced to a blended learning model whereby students were exposed to both technology and traditional classroom cohorts.

(b) What did students struggle with last year? Why? Please consider data by grade level and subject.
Questions to consider include:
- Where are the strong classrooms and grades? How can you use them to lift up other grades and classrooms?
- What grades/classrooms are of the most serious concern?
- What does your data suggest are the reasons why students are struggling?

- Middle school students struggled with behaviors in class and during transitions, as evidenced by the high number of discipline reports, with 769 discipline reports.
- Students’ weakness in math, coupled with an underperforming math department, led to low standardized test scores: 80% of students scored Not Proficient or Advanced, with only 20% scoring Proficient and 50% scoring Warning on the MCAS.
- According to the Galileo Math data, 100% of middle school students (eight) scored in the Lower Growth/Lower Achievement or Higher Growth/Lower Achievement categories. No students scored Higher Achievement categories.
- According to Galileo Math data, 67% of high school students scored in the Lower Growth/Lower Achievement or Higher Growth/Lower Achievement categories. 23% scored in the Higher Growth/Higher Achievement category.
- Whaling City struggled to provide ELL and Special Education students with a substantially separate placement, appropriate instruction and prescribed interventions given the high percentage of special education students, averaging approximately 35 to 40%. Of note, there are no teachers who are special education certified at the high school level.
- There were five high school students identified as English Language Learners. The average WIDA Access Score was a one. These students failed classes at a rate of 37%. There are no certified ELL teachers at Whaling City.
- Attendance continued to be an issue at Whaling City, with a steady decline as the year progressed with a total absentee rate of 23%.
- Whaling City had numerous vacant positions throughout the year including a math teacher, SPED teacher, and behavioral support positions.
Section 3. Develop strategies/actions to address focus areas

Instructions: Based on your analysis of student needs in Section 2, especially question (b), identify 2-4 focus areas for your school to pursue this year. These focus areas should be high-impact levers that you believe will drive student achievement, and should be aligned to the AIP. In the space below, list each focus area and the specific strategies and activities you will complete as part of this focus area to raise student achievement.

Once you have developed these focus areas, identify one benchmark that you will use to measure student progress by November 1, February 1, and May 1. These benchmarks should be based on student work—not adults’ actions. They will be used as part of the focus areas that you discuss with your instructional liaison. You do not need a benchmark for each individual focus area.

(a) List your school’s primary focus areas and 1-3 secondary focus areas for this year. At least one should be ELA/literacy-focused and at least one should be math-focused. These focus areas could be either general (e.g., improve reading comprehension, improve writing) or standard-specific (e.g., improve narrative writing).

Primary Focus Area:
- Improve the rigor of instruction to meet the needs of our diverse students with an emphasis on literacy

2-3 Secondary Focus Areas:
- Increase daily attendance, decrease tardies, and reduce drop-out rate.
- Improve school culture

#1 Primary Focus Area: Instructional Rigor

**Note:** This year, Office of Instruction liaisons will meet with principals twice monthly to conduct learning walks with an emphasis on monitoring and supporting the implementation of SIPs, including how well teachers are implementing key strategies from recent trainings. Liaisons will help principals develop and execute plans to provide extra support to teachers, as needed.
Section 4. Develop a targeted PD plan to support SIP

**Instructions:** Identify 2-3 instructional focus areas that are aligned to your school’s SIP. Then, outline goals for teacher practice and how you will monitor changes in teacher practice. Lastly, build out a targeted PD plan to serve as a road map for providing training to teachers in your building. Where appropriate, indicate what support will be needed from the Office of Instruction for each PD activity.

(a) What are the changes in teacher practice that need to occur to reach the goals set out in this plan?

<table>
<thead>
<tr>
<th>Focus area</th>
<th>What exemplary practice will look like after PD (describe for teachers and students)</th>
