

Jireh Swift Elementary
Plan Overview 2019-2022
 October 2021

Mission				
<p>Our mission at Swift is to ensure we are providing children with a safe and conducive educational environment that challenges students to think critically, be creative, and apply what they have learned. It is a place where all children will be engaged in their learning. Our goal, as a professional learning community, is to provide children with the tools needed to meet or exceed grade-level standards. We look forward to positively impacting children's lives and fostering a cooperative relationship with families.</p> <p>We are committed to developing a community of learners who are academically proficient, demonstrate strong character, and exhibit self-confidence.</p>				
Vision				
<p>Our vision is for all students at the Jireh Swift School to be knowledgeable and acquire specific standards beyond what the MCAS dictates; preparing all students to think critically, problem solve, imagine, create, express, synthesize, and apply information to real-life situations.</p>				
Core Values				
<ul style="list-style-type: none"> Students will be exposed to a positive learning environment, celebrate and show great success and become well-rounded learners socially and academically. Students will take responsibility for their learning and be able to reflect and judge their work. Students will demonstrate leadership qualities by showing respectful behavior at all times. 				
Theory of Action				
<p>At Jireh Swift if we strengthen and facilitate effective integration of Standards based instruction that is focused, positive, differentiated, and engaging to include all stakeholders, then we will increase student motivation, academic success, and develop a love of continuous learning where student will become positive community role-models.</p>				
Strategic Objectives				
1. High Quality Instruction Increase student achievement by strengthening teaching and learning in order to promote in-depth learning, extend thinking and academic exploration.	2. Effective Student Support Systems: Create an inclusive, culturally responsive learning environment in order to promote the learning and growth of all students.	3. NBPS Guidance on Developing School Improvement Plans

Adopted, in part, from MA DESE's Planning for Success: <http://www.doe.mass.edu/research/success/>

What Are Mission, Vision and Core Values? The mission is the school's purpose and explains why the organization exists. The mission focuses on today and what the school does on an everyday basis. The vision is the school's aspirations for students and explains what the community values and why, and what future success looks like. Core values are the principles that guide the decision making and action that will help achieve the vision; they reflect what the school community believes in.

What is a Theory of Action? The theory of action is a strategic if-then statement about a high-leverage area of practice that is targeted for improvement. The theory of action connects a school-wide problem of practice (something within the school's control) with an aligned strategy/solution. The theory of action creates a logical chain connecting an area of growth to a proposed solution and its intended outcome. Example: if we incorporate instructional strategies across all content areas that promote student analysis and inquiry, then all students will achieve at higher academic levels.

What Are Strategic Objectives and Initiatives? Strategic objectives are the coherent group of overarching goals and key levers for improvement that will achieve the future vision. Strategic objectives articulate not only the "what" of the plan but also the "why." Strategic initiatives are the projects and programs that support and will achieve the strategic objectives. Strategic initiatives are the "how."

What Are Outcomes? Outcomes are the plan's expected results: what they will be, how they will be measured, and when they will occur. Outcomes are the SMART goals for the school: specific and strategic; measurable; ambitious and action-oriented; rigorous, realistic, results-focused; timed and tracked. Outcomes measure the school's success in achieving its vision and include specific targets for the improvement expected as a result of multi-year plan implementation.

What are Process Benchmarks? These implementation benchmarks monitor progress and specify what will happen, who will do it, and when. Example: Each grade-level team of teachers will adopt and implement five ELA standards-based common formative assessments by June 2020.

What are Early Evidence of Change Benchmarks? These implementation benchmarks monitor impact and identify changes you should begin to see if the plan is having its desired impact while being implemented. Early evidence benchmarks are indicators of effective implementation rather than measurements of interim results. Early evidence benchmarks might include changes in practice or attitude from sources such as classroom observation or surveys. Example: An increase in student use of oral language will be observed in 100% of ESL teachers' classrooms between October and January.

What is the status column for? This column will likely be blank at the beginning of the year. School leadership teams should add notes within this column throughout the year, tracking key information and the status of each benchmark.
